See where the hour hand is, and where the minute hand is. Notice each again an hour later. How far has the hour hand traveled? How far has the minute hand gone? Which moves faster--the hour or the minute hand? Notice the numbers on the clock. They are called Roman Numerals. Which one looks the most like the figure 1? If I = 1, II = --, and III = =. Beginning with I, count right around and find what V equals. Find what X equals. on a paper circle. Then paste this on a cardboard square. Cut out cardboard hands. If you fasten them on with a pin you can make them move around. In learning to tell time you will find out these facts: 1 hour = 60 minutes. hour = 30 minutes. The teacher should be provided...
